JEFF ANDERSON

UX DESIGNER / FULL STACK DEVELOPER

ABOUT ME

As a seasoned UX/UI Designer developer, I bring a wealth of experience in analytic research and examination to my work. Leveraging over 18 years as a title examiner, I excel in translating complex data into user-friendly models. My knack for research, meticulous attention to detail, and effective communication skills have been instrumental in my success within an industry that demands precision

Abilities and Tools

- Prototyping
- UI Design
- User Research
- Various coding lanugages
- Industry standard design platforms

EXPERIENCE

Full Stack App Developer
Tap-In, Portland
2024-2025

Designed and developed a stand alone social media platform that showcases interactive feed and thread-based communication interfacing, scheduling, reminder, and notification integrations, private messaging and peer-to-peer chats and group-chats

UX/UI Designer
Moments, Remote
2023-2024

Spearheaded a dynamic five-person development and design team tasked with optimizing the interactive mobile interface for a B2C social-media platform and delivering the final stage of the project, while ensuring adherence to best practices and effective stakeholder communication

UX/UI Designer
CoreAi, Remote
2022-2023

Partner within a B2B SaaS design team for an A.I. analytics platform. Tasked with ideating and re-designing an optimized product solution vis-a-vis stakeholders' needs, collaborative efforts to conduct research, draft user flows, detailed sketches, mockups, wireframes, generating a comprehensive framework for the ultimate realization of the final product
